Michigan Chamber Members:

We are pleased to present the 2021-22 Job Provider Index (JPI), the Michigan Chamber’s biennial voting guide.

The Chamber’s JPI tracks key legislative votes on top policy issues impacting job providers and the state’s business climate. It breaks down the voting percentages of each Michigan lawmaker based on designated votes they cast on key legislation on which the Michigan Chamber clearly communicated its position prior to voting. Our commitment has been - and remains - focusing on pragmatic policy and problem solving.

This tool also serves as the basis for the Michigan Chamber’s campaign endorsements of incumbent legislators. Any current legislator running for re-election to the same office who scores 75% or better on the Chamber’s JPI is eligible for an “earned endorsement.”

In encouraging news, 59 House and 21 Senate lawmakers from both sides of the aisle consistently cast their votes in support of jobs, taxpayers and economic growth. Of particular note, 18 of these House and Senate members went the extra mile with a perfect 100% on the Chamber’s Scorecard, earning them the special designation as a “Champion of Free Enterprise.”

We hope you find this Scorecard a valuable resource, both as a voter and as a business leader.
