## **Michigan Chamber: Study shows bipartisan auto no-fault reforms are delivering real results**

**(Lansing, Mich.)** – The Michigan Chamber released the following statement from Wendy Block, senior VP of business advocacy, on the third-party [Milliman, Inc. report](#) issued by the Michigan Department of Insurance and Financial Services (DIFS) as requested by the State Legislature analyzing the impact of the state’s 2019 auto insurance reforms:

“This new analysis confirms that Michigan’s bipartisan no-fault insurance reforms are delivering real, measurable savings for drivers and employers. The data shows these smart, consumer-focused reforms expanded choice, lowered costs and strengthened the market. While costs have come down, the report also rightly notes that more can – and should – be done to improve auto insurance affordability. Reducing these costs remains critical for Michigan families, talent attraction and retention and our overall economy.”

###

*The Michigan Chamber of Commerce is a statewide business organization representing approximately 5,000 employers, trade associations and local chambers of commerce. The Michigan Chamber represents businesses of every size and type in all 83 counties across the state employing more than 1 million Michiganders. The Chamber was established in 1959 to be an advocate for Michigan’s job providers in the legislative, political and legal process.*
